Modular Alarm, Monitoring and Control System

BÖNING SMARTBRIDGE

SLENDERIZED INTEGRATION OF
NAVIGATION AND AUTOMATION

COMPONENTS FOR
CUSTOMIZED BRIDGE SOLUTIONS

30 mm slim displays

Command glass touch screens

Smart integration of external devices

Included radar and ECDIS software

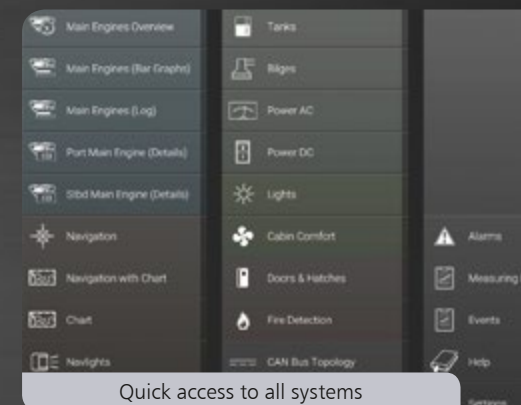

VHF control via touch screen

MODULARITY IN A MONOLITHIC AND LIGHT DESIGN A SMALL, BUT SMART SPACE FOR MANAGING THE ENTIRE SHIP.

The powerful Böning ship automation system connects to almost any system and sensory device on board. With the integrated ECDIS software the skipper gets an overall solution at a central point.

Irreplaceable external devices like VHF, autopilot, weather fax or any else can be concealed under the console. Control of all systems is performed by touch screen or customized operation panels.

Quick access to all systems

External systems as hidden black boxes

Variations of Böning control panels

Convenient selection of external sources

Multiple dimming and color options
